## Eco-Discovery Shop Opens!

Our new Eco-Discovery Shop opened to great fanfare over the Australia Day long-weekend.

We've wanted to have a street presence in Denmark for some time and when the perfect shop front became available we quickly grabbed the chance.

The shop stocks a great range of souvenirs and gifts that promote the message of environmental sustainability.

Eco-Discovery Shop

For children we have science experiments, do-it-yourself solar energy kits, telescopes and binoculars, as well as magnifying glasses and bug houses. Our big basket of replica insects and spiders is great fun!

Our kites are proving to be the most popular items in store - and with autumn fast approaching, it is the perfect time of the year to get down to Ocean Beach and start flying them.

As part of our 'green' message to consumers we are promoting solar and wind-up torches, radios and chargers, biodegradable and compostable 'plastic' bags, and biodegradable palm leaf picnic plates.

We are waiting for a new stock of outdoor and hiking products to arrive - all the gear you'll possibly need to get out and enjoy this wonderful area.

Next time you are in Denmark stop by and say 'Hello'! We look forward to catching up with you.

## Bibbulmun Guided Walking Tours

We are pleased to announce our new partnership with Pensione Verde Organic Accommodation.
